GRAPHIC DESIGNER

tp

Hi, I'm Te'Yauna Parker.

A Graphic Designer. My works are just a click away.

About me

I'm a student Graphic Designer based in North Carolina with a lot of talent. Areas of expertise include knowledge of Adobe Suite (Photoshop, Illustrator, and InDesign). Also I'm certified in Photoshop and InDesign. Being in high school and being able to have this knowledge and certification has really been an amazing experience.

COVER LETTER

Te'Yauna Parker

September 29, 2023

Michelle P.,
Carter's
2040 Evans St #123
Greenville, NC 27834

Dear Ms. P,

I'm delighted to apply to the sales associate position at Carter's.
It's amazing to be able to match my skills and career interests.
And with the interest of helping people and
directing them into the right direction,
I truly believe that I have a lot to offer the Carter's team.

In addition to helping people, I've had experience working in fast food
and having a lot of customer service to offer.
Helping to make sure I reached all the customers expectations and being able to
make sure my team is at the best.
Known for my team working and communication skills I think
my skills meet the requirements of being a sales associate.

I'd be excited to bring my team working skills to help Carter's employees to be able
to work together and bring the company to the top.
Please feel free to contact me at
teyaunaparker@gmail.com or by phone at (252) 413-6439.
Thank you for your time and consideration.

Sincerely,
Te'Yauna Parker

Photoshop Certification

While taking Adobe 1 I had the amazing chance to take the Photoshop Certification test, Which I passed on first try and now Photoshop Certified.

InDesign Certification

While taking Adobe 2 I had another Chance to take the InDesign Certification test, Which I passed on first try and now InDesign Certified

### ServSafe Certification

While taking Food & Nutrition 2 I had Chance to take the ServSafe Certification test, Which again I passed on first try.

Additional achievements

*I received Students of the Month.

*I achieved doing hair more and more and gotten better.

*I achieved making good grades and getting into my first choice HBCU.

DVD Cover

Requirements and How I achieved it:

For the DVD case project, I was required to make a case from any show/movie. It had to be very different from the original look of it. We had to have a clear readable title, and a graphic design that reflects the movie and the theme. On the back we had to make sure we had a summary and a little bit of a review of the movie. While having a barcode and having in important information.

For my movie choice, I decide to go with clueless. For the front cover I made sure to have a totally different type of title, that's very unique and different. I added the main three characters, with scenes of them from the movie as the background. For the back cover I tried to include all the main characters, while also having the main features of the movie. I also added popular scenes from the movie on the back cover. For this project I felt like I meet all the requirements plus more.

Playing Cards

Requirements and How I achieved it:

For the playing card project, I was require to have 15 cards in total. The Cards should have a unique design for the suit. Should have a number or letter to define the card, the Ace, King, Queen, Jack, Joker and a back design. The project was mostly done in Photoshop with the help with Illustrator as well.

For my unique playing cards, I decided to do Disney. For my suit I did mickey ears, with a font that looks Walt Disney. With Disney there's always a bad side of things, so I decided to put split good and evil. I did it for all facing cards, which was done in Photoshop. I made sure it was clean and very different.

ISLAND GETAWAY

Ocean Walks

COCONUT WATER

Soap Boxes

Requirements and How I achieved it:

For the soap boxes project, I was require to design a brand with 3 new scents. Each design should be unique in the set and look good. I had to use Photoshop to create the main design but the logo had to be traced out in Illustrator.

For my design I went with a more beach look. The 3 new scents that I want to add was Island Getaway, Ocean Walks, and Coconut Water. For my design I wanted to show how it would smell without having to pick it up. I tried to keep the same color scheme throughout. I think my soap boxes was unique and met all the requirements.

Who Am I

**Requirements and How I achieved it:**

For the Who am I project, I was require to make a poster that give me motivation on what I can do and achieve. It had to have a prompt of "I can", and things I want to achieve. The design had to be a portrait of myself traced out in Illustrator, aside with a background.

For my design I wanted to make something I could look at daily. Something that gave me motivation to meet my goals and what I could achieve in life. For my portrait I wanted to give myself a challenge and make it accurate as possible. I traced the whole thing out in Illustrator including the background.

i CAN...

Graduate highschool

Go to school to become a CSI

Travel the world

Be a great mother and wife

Have a positive outlook on life

Become somebody

Reach all my goals

(The 12 custom months)

Calendar

Requirements and How I achieved it:

For the Calendar project, I was require to design a calendar that show off how well I work in Photoshop and Illustrator. I was expected to create a 26 page spread, with a back and front cover. Which month should have the same thing and image to match it. And had to have at least 2 images,

For my design I wanted a more aesthetic look that looked very clean. Which each month have a one line traced and second image from Illustrator and a quote that went with each month. The months had a color that associated with that month. I created a front cover and back cover with the same type of look. On the left you can see my 12 custom months.
