## About me!

My Name is Riley Berbohm. I took Adobe Visual Design 1 and 2. I am experienced and certified in Adobe Photoshop, Illustrator, and Indesign. The first program we learned was Adobe photoshop in Visual Design 1. We then learned Adobe illustrator. The next year I took Adobe Visual Design 2. We refreshed our memory of photoshop and illustrator. but then we learned adobe indesign and how to make projects with all 3 programs at once. Making projects with all 3 progams are very fun and it helps me be more creative and learn more about the programs. I like being caught up on my work and or assignments.

My inspiration for this layout came from my love for the beach. I love the different colors the sky and ocean can bring. It also brings back good memories when I think about a beach.

Check out my extra page for more details!!

## little bit more about me!

I love hanging out with friends and meeting new people. I love being with my family. I live with my younger brother, dad, and my dog. We moved down to Winterville North Carolina from Baltimore Maryland. We love spending time together and going on vacations when we are able to. My favorite place to go on vacation is to Ocean City Maryland. I have so many good memories there. When we lived in Maryland we used to go there every year for my birthday. We stopped going for a little bit when we came to North Carolina. When we do go back to Maryland we visit family for a few days and then head to Ocean City. I love walking on the boardwalk and looking at shops. I also love the rides at night and winning prizes with my family.

- I was born in Huntington Pennsylvania and lived there for about 1 year and me, my dad, and my mom moved to Baltimore Maryland. My younger brother was born 2 years after me. We lived in Maryland up until 2016 and we moved to Winterville North Carolina. A year before we moved my mom passed away from cancer.
- I started the 5th grade here in North Carolina and my education continued here. I currently live with my dad, younger brother, and my dog. We got my dog shortly my childhood dog passed away after my mom. She is a Pomeranian and she loves treats and attention. She makes our days better each day, just looking at her makes us smile. Her name is Bing Bing. My childhood dog was a Pitbull and loved to wag her tail and get cuddles. Her name was Coco.
- I want to serve in the military. I'm currently getting the process ready. My dad was in the Navy active, I want to join the Army reserves so I can still go to college.

- I plan on going to ECU and study Psychology. I also plan to study Japanese further than I did in high school.
- I am a very hard working, caring, passionate person. I love being creative and coming up with new ideas.
- I have good leadership and communication skills. I was in JROTC in high school for 3 years, 4 semesters (2 semesters a school year). I was on Raiders and drill team. Raiders consist of physical features as well as mental. We work as a team and don't leave anyone behind. Drill team consists of rifles, sharp movement, and military bearing. They both consist of much more but that is the overall gist. It helped me get out there, be more active, and develop better communication skills as well as leadership skills.

# Name Tags

1

This was the first project I have made. I made this in photoshop. My images were the drumset, the butterflies, the hearts, the headphones, fire, and 2 images stacked ontop of each other for the quote in the top right. I made an outer glow for each of my images. My palette consisted of mainly white, red, and black. For my headphones and my butterflies as well as the hearts I put a color overlay of 100% white.

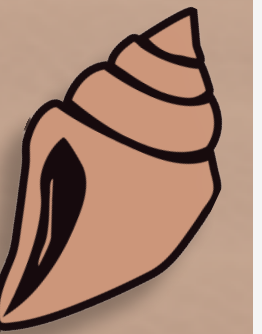

2

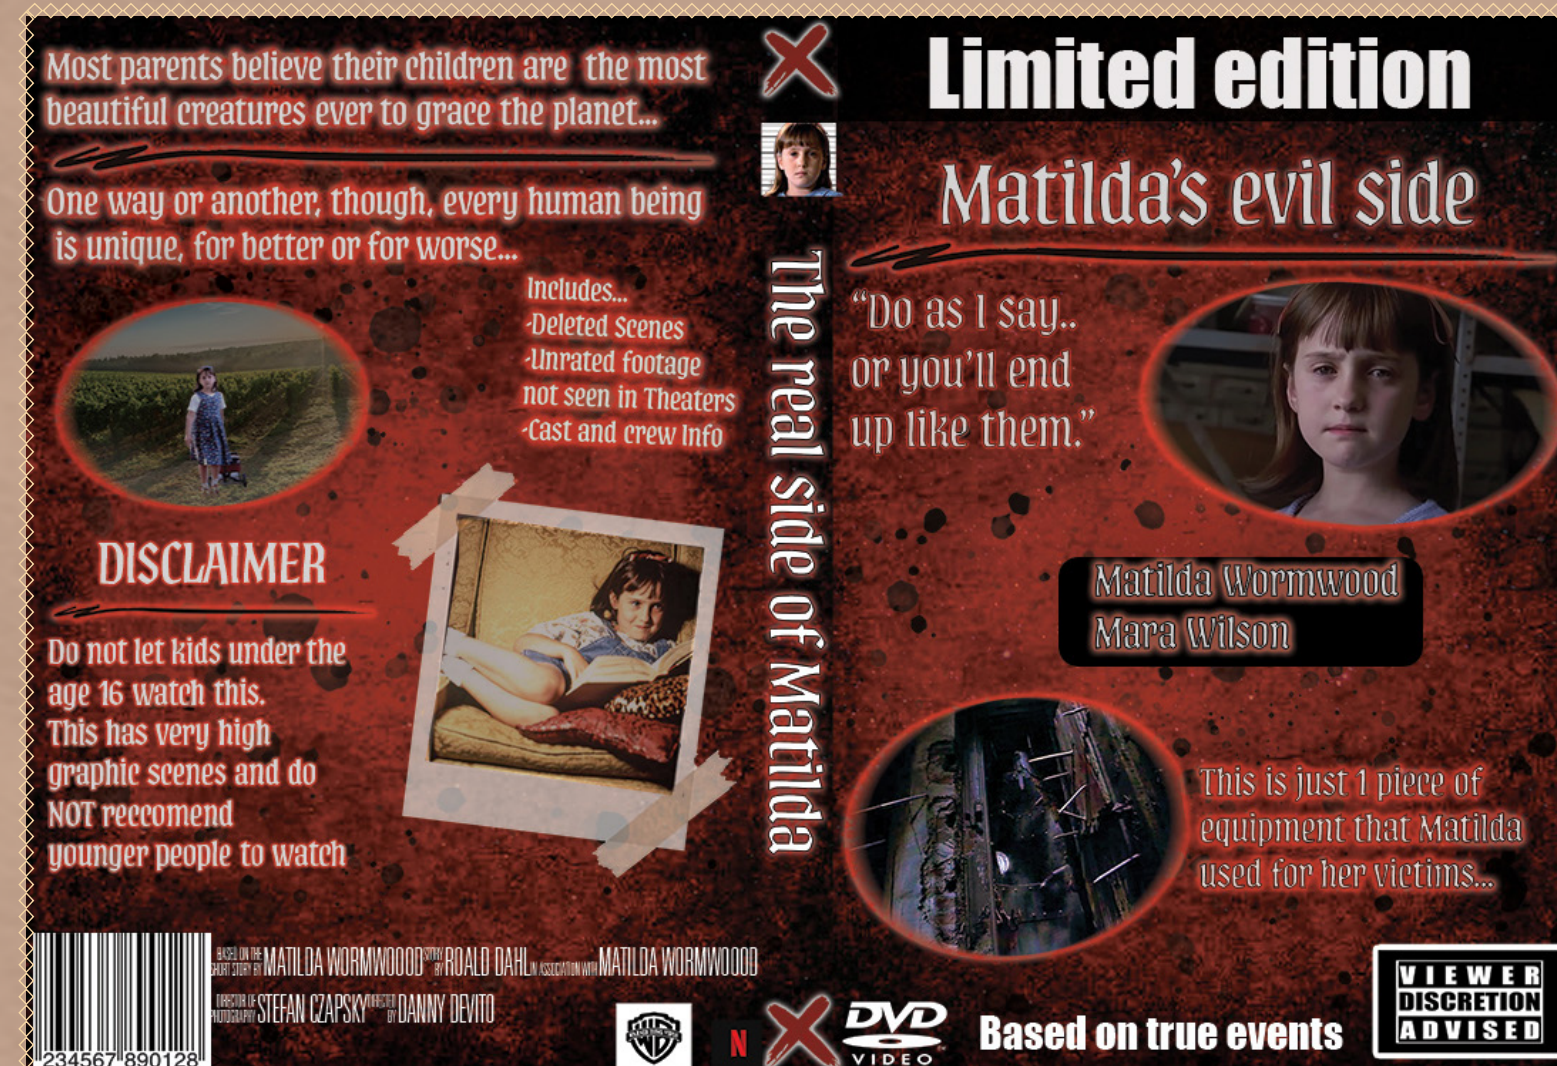

This nametag was the first project for Adobe visual design 2. My idea for this was game of thrones. The background is blue flames, I added in a red flamed dragon and a blue flamed dragon. For the throne I put it in the center and added a sword going through it. For my hand with the crown I put an outer glow of white and lowered the opacity and did the same with the 3 headed dragon in the top right. The line separating my name in different fonts is a brush.

# DVD/ Promo

1

I made a DVD in photoshop. I chose the movie Matilda and turned it into a true horror movie instead. For the background I used a red texture with a black brush. On my texts I put a red outer glow. For the lines I used a brush and also added a red outer glow. On the back cover I cut out Matilda into the field. For the photo with the tape I put an image on it and lowered the opacity of both images. I also put a red outer glow on the circle images

1

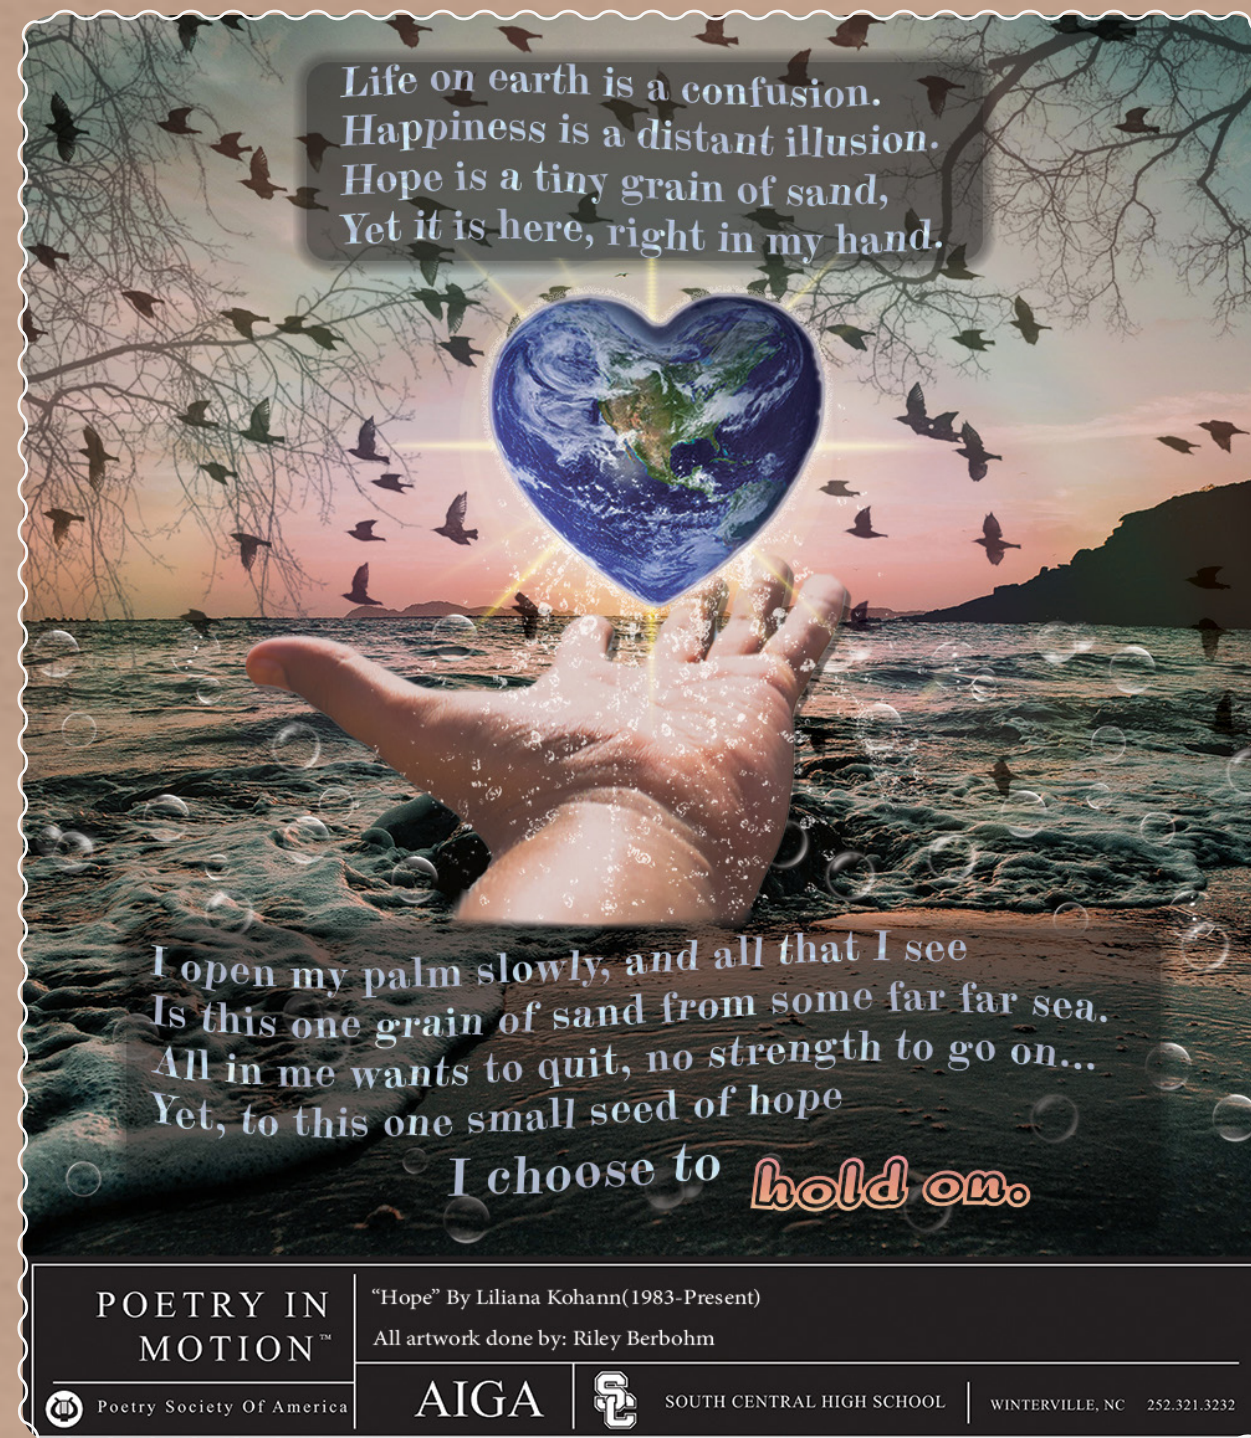

I made a Green Day Promo poster. It is not an actual event for promotion. I put the time, location, how much the tickets are, contacts, and what is going to be played. For the background I used a green and blue swirl. I added a white and black brush and it was splatters. On the texts I put a white outer glow and the text itself was white. I put a white outline on the lead singer and added a grenade heart. At the top I used a brush to give that black drip effect. Most of my images have low opacity.

# Poetry/ Who am I

1

I made a poster for a poetry and used images as well as brushes to put the poetry in motion. My text is blue and then used a gradient of pink, orange, and yellow to represent a sunset. I warped my text to look like ocean waves. For the heart earth I added water droplets and sun beams with a brush. I added a rainbow overlay as well as birds going across.

1

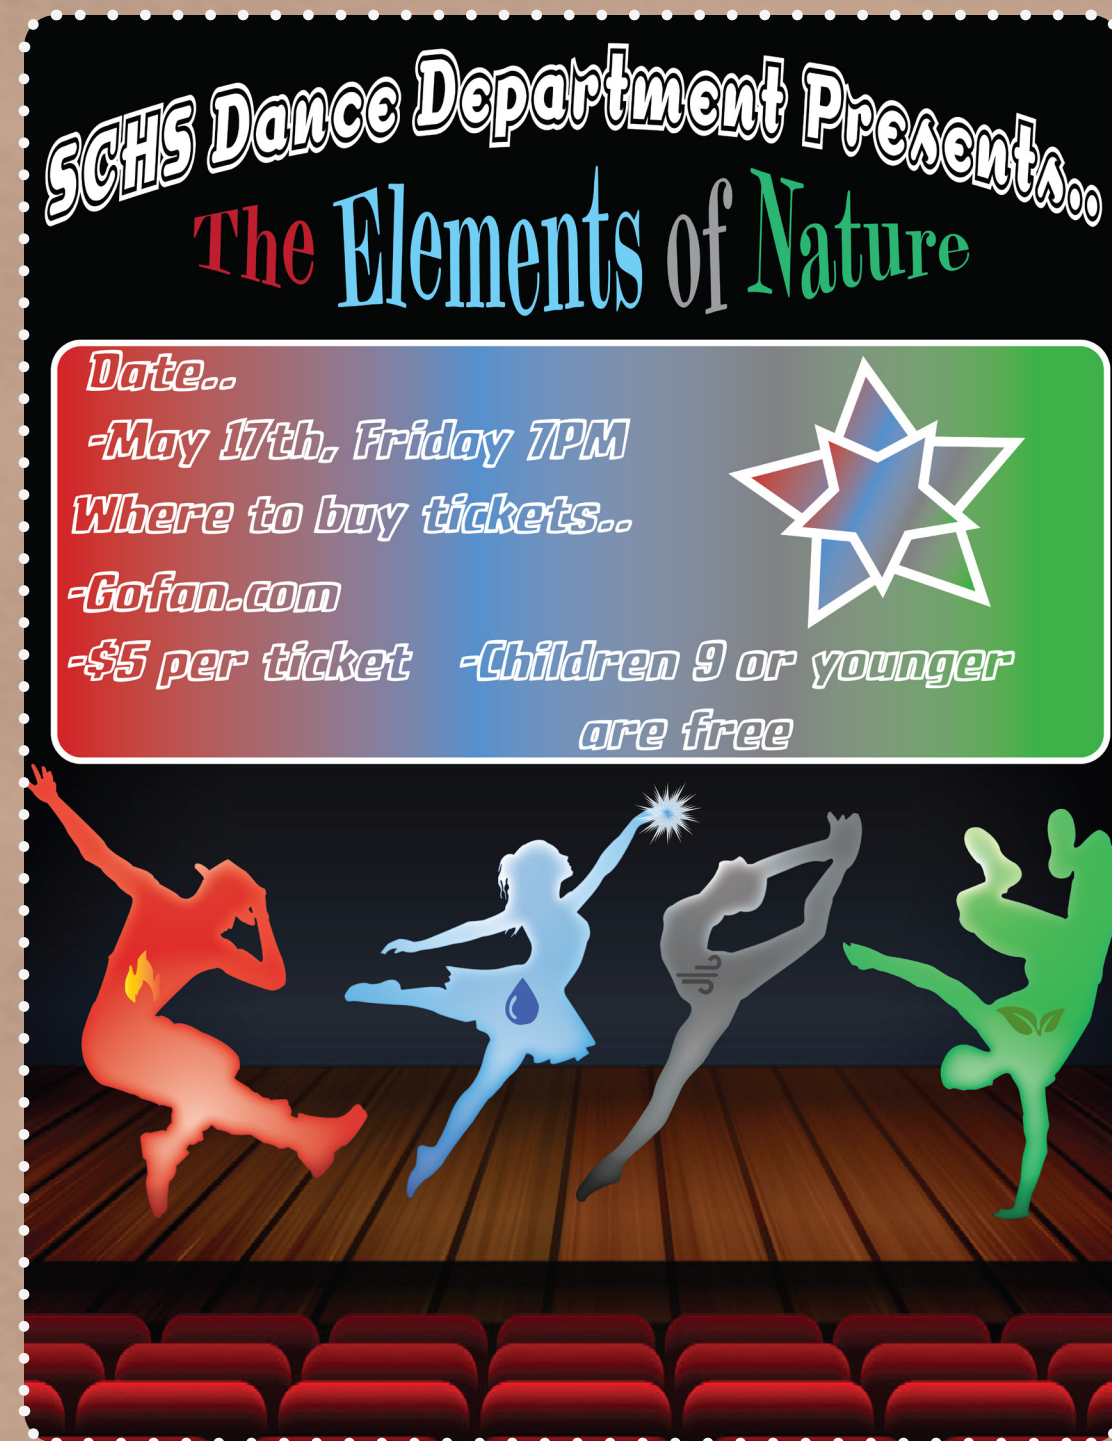

I made this in Adobe Illustrator. For the background I made a red back with gray wavy lines with red stars and white butterflies. I also make a lamp post above and beside me and added string lights. I turned my text into outlines. I used a pattern of white and then yellow for my text. I illustrated myself all with shapes using the pen tool.

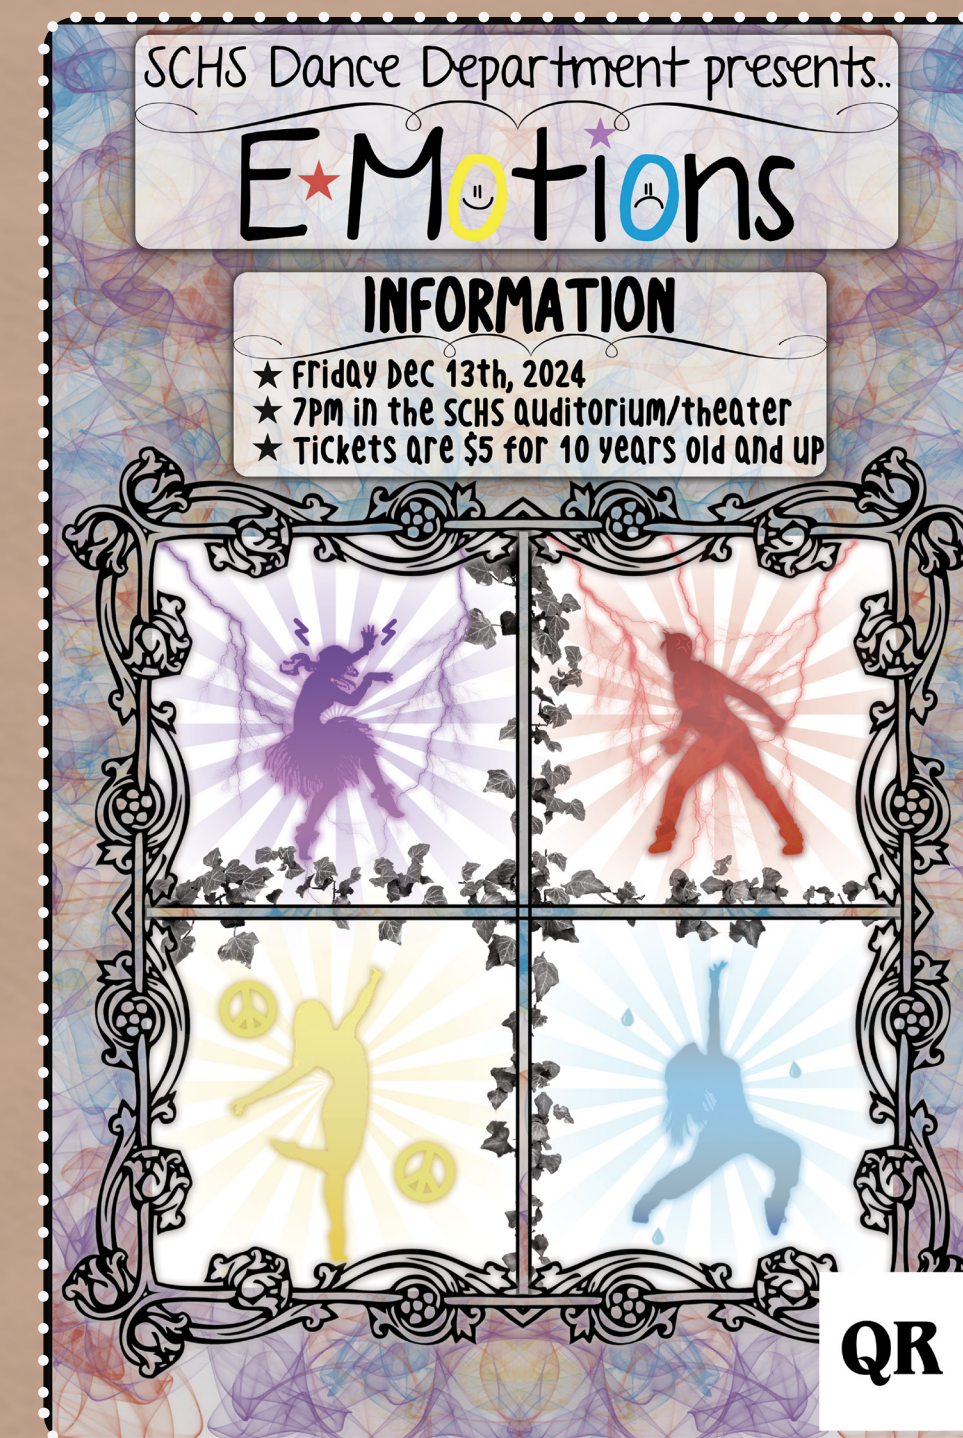

# Dance

1

I made a dance poster promoting the South Central High School dance department. The theme was the elements of nature, fire, water, wind, and nature. For the box I used a gradient and added 2 stars on top of each other with the same gradient. I also used those colors in the title and the characters.

2

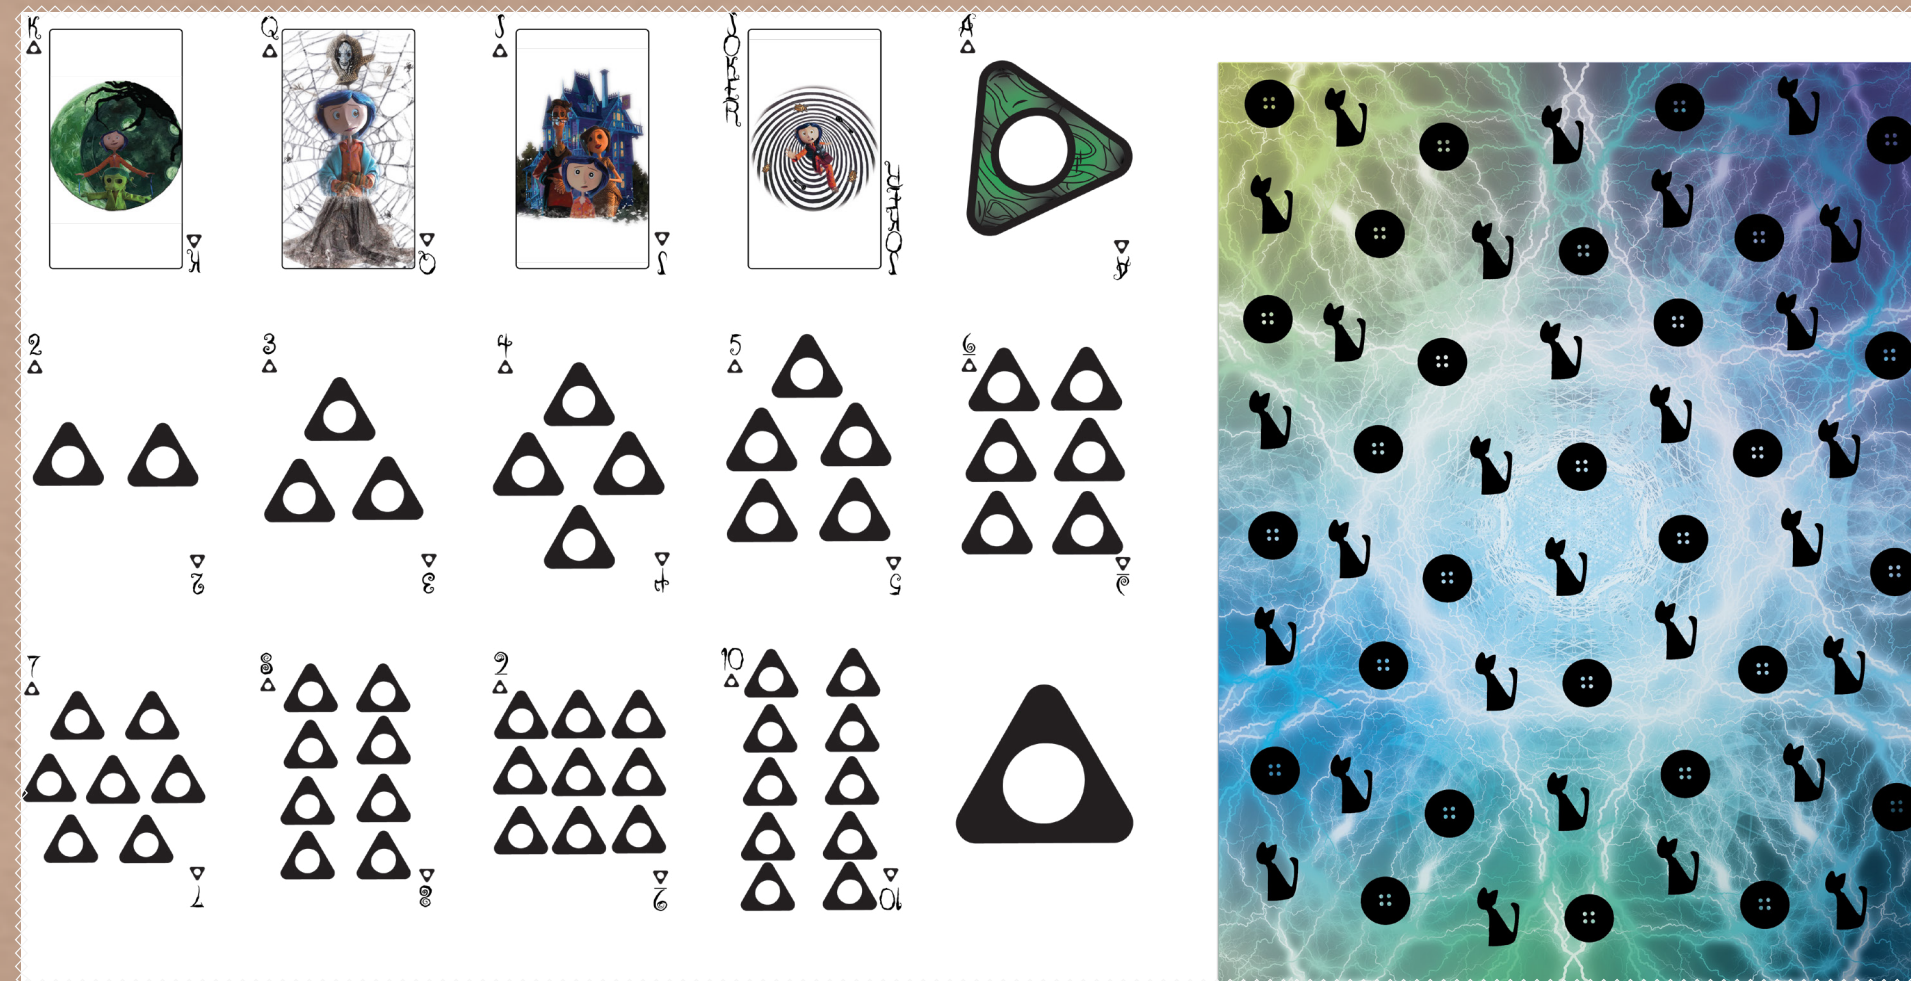

I made another poster promoting the South Central dance department presenting emotions but also motions. For my background I used a symmetry brush with the colors I used for the characters as well as in the title. For the frame I used a brush. I also used a brush for the lines in the title as well as the information.

# Playing Cards/ Greeting Card

2

I made a suit for a playing card deck. My theme was based on the movie Coraline. For the royal cards I made them in photoshop and added images within. For the suit cards I used illustrator. For the back cover I used a symmetry brush for the colors and made that in photoshop. I then went into illustrator and added a button and cat pattern ontop. I made a gradient on my Ace card.

2

I made my greeting card in photoshop, illustrator, and indesign. For my images as well as the back design I made them in photoshop. My logo on the back cover next to the barcode was made in illustator. The entire thing was put together in idesign. The black and white images are brushes.

# Clothing Line/ Catalog

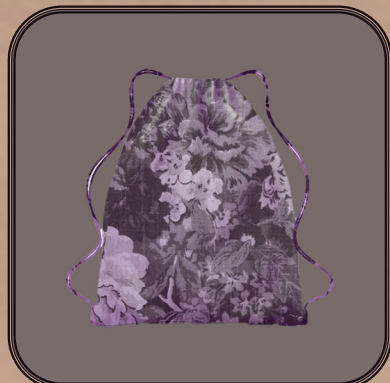

2

I made a clothing line in photoshop on artboards. My logo is my initial in a moth with spikes coming out of it. I made my logo in illustrator. I used images, brushes, and different coloring for each piece of clothing or item. I also put my logo on each piece of clothing.

2

This has been my favorite project so far. I made my clothing catalog in indesign. For the backgrounds I made them in photoshop with a brushes. For my text I put a drop shadow to give it some pop with an underline. I also used my logo from my clothing line into my catalog. My brand for my catalog is called "errie wings."

### CONTACT GIVEAWAY

errieWings@gmail.com  
@ErrieWings  
@ErrieWings  
@erriewings

### INFO

If you have received an item that is broken, damaged, or have not received please contact us at erriewings@gmail.com or call us at 252-923-0000. We will replace the order as well as throw in some freebies!

We are excited to announce we are having our next giveaway on December 15th, 2024. The giveaway will consist of one of our products such as a T-Shirt, a Hoodie of your choice, as well as a String Bag, a sticker of our logo and a \$40 Gift card for errie wings. To register for a chance to win check out our social media or go on our website under "Giveaway" or check out this link! <https://ERRIEWINGSGIVE.COM>

If you'd like to enter our future giveaways check out our website and social media for updates!

### !!Disclaimer!!

You are not required to purchase any sort of item in order to enter a giveaway

Page 6-7: Dresses  
Page 8-9: Skirts  
Page 10-11: String Bags

### ABOUT US

My name is Riley Berbohn. I am one of the first founders of errie wings. How are company came together was by finding others that came together and wanted to do something creative. We decided to make a clothing company. We all had a vote on what style we should do and how many items. There were someone working on the logo, someone ordering the plain clothing we need, and someone working on the designs on the clothing items. We hired models for the clothing. They got to keep the clothing and let them promote us. Within the first year of starting our business we made over \$2.3 Million and we continue to grow. Within the second year we made around over \$3.5 Million! We do giveaways and if you want to know how to join check out the back of this catalog!!

### HOODIES
